

Corona-protocol - exhibitors

We are pleased to be able to welcome our exhibitors again at the Vakbeurs Foodspecialiteiten. This protocol includes measures and procedures that must be taken before, during and after the exhibition, in order to realise the safest possible exhibition.

In general

- Preferably come to the exhibition with your own transportation.
- Are you planning to come by public transportation; follow the guidelines of the public transport company.
- Keep at least 1.5 meters away when travelling with more than two people.
- Strictly follow the instructions and guidelines received in advance from the organiser.
- Keep 1.5 meters away at all times in- and outside your stand.
- Do not shake hands with colleagues and/or visitors.
- Exhibitors themselves are responsible for enforcing the rules within the stand and must actively manage this. This document can help doing that.
- Exhibitors must take appropriate hygiene measures to prevent spreading the virus. For example, periodically cleaning frequently used surfaces during demonstrations.
- Stay at home if you have cold complaints and/or fever, unless there is a negative test certificate.

Stand layout

- The stand must comply with the stand construction regulations (see exhibitor regulations).
- Boxes, crates, etc. must be mobile as much as possible (if too heavy) and are touched by as few people as possible, from the supplier to the final location.
- Keep in mind that you limit your crew in the booth so that more visitors can visit the booth. A maximum of 1600 people may be present on the exhibition floor at the same time, this includes exhibitors. The more exhibitors, the fewer visitors. By means of check-in and check-out, numbers are registered and closely monitored.
- Contact surfaces are cleaned between each use.
- Make sure there is enough space on the stand to maintain a distance of 1.5 meters from each other (according to the guidelines in force at the time).

Tasting and catering

- Drinks and food may be presented using a self-service method.
- Food items are preferably presented individually packaged.
- Crew catering: There are various options for employees for a tasty meal. You can order lunch boxes via our webshop (the range changes daily and the lunch boxes are delivered to the stand) or you can use the catering facilities on the exhibition floor.
- Also keep the 1.5 meters distance during a restaurant visit.

Preparation

- The day before departure, the exhibitor informs his crew again about the guidelines and the applicable protocols.
- The exhibitor is explicitly requested to determine on the basis of the health check whether work can continue at the exhibition (you will receive this health check by e-mail a week before the exhibition).
- In case of changes and/or additions to protocols and guidelines, exhibitors will be informed by e-mail.
- Exhibitors are required to state the number of stand crew and/or stand construction staff with name and telephone number (a separate e-mail will follow at the beginning of September).

Arrival

- At the entrance of the location, exhibitors are again reminded of the most important rules and protocols.
- Do the health check in advance. Exhibitors with health complaints are requested to go home, unless there is a negative test evidence.
- Exhibitors must disinfect their hands at the entrance of the location.
- A separate protocol has been drawn up for visitors in which all guidelines for visitors are described.
- Those who have Corona symptoms and cannot provide a negative test will be expelled from the premises.

Wardrobe

- Exhibitors are requested to keep their coat on the stand and/or leave it in the car (without valuables) where possible.

Aftercare

- We ask exhibitors to notify us if they experience complaints after their presence at the trade fair. Of course this is not mandatory, but it can prevent the spread of the virus.
